# LEATHER RANGE

We only use full leather for our collections; no splits apply.

## PUGLIA

Puglia is a corrected grain leather crafted from top-quality hides processed in Italy. The hides are machine-buffed to remove superficial characteristics, then coated with a pigment to ensure consistent coloration across every piece. The surface is embossed with an artificial grain to deliver a uniform appearance, reducing visible natural markings and enhancing the leather's physical durability. This finish also minimizes absorption from spills, making Puglia a practical and family-friendly option. Available in a refined palette of five versatile colours, Puglia offers an elegant and easy-to-maintain solution for modern living spaces.

## NAPOLI

Napoli is a natural grain, Semi-Aniline leather made of high quality hides that have been processed in Italy. A special re-tanning process is applied to give the leather its rich hand feel. A contrasting roller effect has been applied to the surface of each hide to add visual character, before being treated with a protective finish to increase durability. A characterful and family-friendly leather.

## LAZIO

Lazio is a hand-buffed Aniline leather made of top quality hides that have been processed in Italy. This leather is a celebration of the rich history of each and every hide and the individual characteristics that make them unique. The hides are buffed by hand, piece by piece. Other than a light protective finish that has been applied to the grain in order to increase its physical performance, Lazio's surface is completely natural and free from additional treatments so as to retain the natural look of the leather. Natural leather will be subject to shade variation between and even within upholstered panels, ensuring every piece of furniture is unique.
