# LEATHER RANGE

We only use full leather for our collections; no splits apply.

## VERONA

Verona is a Pigmented leather made of top quality heavy-weight hides processed in Italy. The higher-thickness enhances the hand-feel and the visual opulence of the leather. Hides are machine-buffed to remove superficial characteristics before being coated with a pigment to ensure colour consistency. Following this, hides are embossed with an artificial grain to give a uniform appearance and further reduce any visible traces of natural markings. These additional treatments only increase the product's physical durability, reduce absorption from spills, and is a family-friendly option for those seeking to get the most out of leather's hard-wearing properties.

## NAPOLI

Napoli is a natural grain, Semi-Aniline leather made of high quality hides that have been processed in Italy. A special re-tanning process is applied to give the leather its rich hand feel. A contrasting roller effect has been applied to the surface of each hide to add visual character, before being treated with a protective finish to increase durability. A characterful and family-friendly leather.

## TURINO

Turino is lightly-buffed, two-tone natural grain Semi-Aniline leather made of top quality hides that have been processed in Italy. Hides are then finished with a pigment to increase top-coat durability, before a very subtle darker contrasting effect is applied to the tips of the grain to create a discreet two-tone affect. A family friendly leather with a wide appeal.

## CAPRI

Capri is a hand-buffed Aniline leather made of top quality hides that have been processed in Italy. This leather is a celebration of the rich history of each and every hide and the individual characteristics that make them unique. The hides are buffed by hand, piece by piece. Other than a light protective finish that has been applied to the grain in order to increase its physical performance, Capri's surface is completely natural and free from additional treatments so as to retain the natural look of the leather. Natural leather will be subject to shade variation between and even within upholstered panels, ensuring every piece of furniture is unique.

## LAZIO

Lazio is a hand-buffed Aniline leather made of top quality hides that have been processed in Italy. This leather is a celebration of the rich history of each and every hide and the individual characteristics that make them unique. The hides are buffed by hand, piece by piece. Other than a light protective finish that has been applied to the grain in order to increase its physical performance, Lazio's surface is completely natural and free from additional treatments so as to retain the natural look of the leather. Natural leather will be subject to shade variation between and even within upholstered panels, ensuring every piece of furniture is unique.
