THIS COLLECTION USES:

Kind Leather focus on creating truly sustainable leather, cutting down on wasted product and the use of harmful chemicals that can be damaging to the environment.

Some of the benefits of Kind Leather include:

Up to 62% less electrical energy consumed.

Up to 52% lower water consumption.

Up to 43% lower global warming potential.

Up to 40% less chemicals consumed.

HIGH DENSITY FOAM SEATS

Our high density foam seat interiors offer a comfortable and supportive sit whilst maintaining their shape.

CARE GUIDE

To improve the longevity of your hand-made furniture, we recommend rotating cushions (where applicable).

For further information on maintaining your furniture, please refer to the Care Guide located under the seat platform.

FOOT OPTIONS:

LEATHER RANGE

We only use full leather for our collections; no splits apply.

VERONA

Verona is a Pigmented leather made of top quality heavy-weight hides processed in Italy. The higher-thickness enhances the hand-feel and the visual opulence of the leather. Hides are machine-buffed to remove superficial characteristics before being coated with a pigment to ensure colour consistency. Following this, hides are embossed with an artificial grain to give a uniform appearance and further reduce any visible traces of natural markings. These additional treatments only increase the product's physical durability, reduce absorption from spills, and is a family-friendly option for those seeking to get the most out of leather's hard-wearing properties.

NAPOLI

Napoli is a natural grain, Semi-Aniline leather made of high quality hides that have been processed in Italy. A special re-tanning process is applied to give the leather its rich hand feel. A contrasting roller effect has been applied to the surface of each hide to add visual character, before being treated with a protective finish to increase durability. A characterful and family-friendly leather.

TURINO

Turino is lightly-buffed, two-tone natural grain Semi-Aniline leather made of top quality hides that have been processed in Italy. Hides are then finished with a pigment to increase top-coat durability, before a very subtle darker contrasting effect is applied to the tips of the grain to create a discreet two-tone affect. A family friendly leather with a wide appeal.

CAPRI

Capri is a hand-buffed Aniline leather made of top-quality hides that have been processed in Italy. This leather is a celebration of the rich history of each and every hide and the individual characteristics that make them unique. The hides are buffed by hand, piece by piece. Other than a light protective finish that has been applied to the grain in order to increase its physical performance, Capri's surface is completely natural and free from additional treatments so as to retain the natural look of the leather. Natural leather will be subject to shade variation between and even within upholstered panels, ensuring every piece of furniture is unique.

LAZIO

Lazio is a naturally rich Aniline leather, crafted from the highest quality hides meticulously processed in Italy. Each hide is given a unique finish of oils and waxes, enhancing the depth and lustre of the colour while offering added protection. This process results in an intriguing 'pull-up' effect, where the colour subtly lightens when stretched or pulled, adding an engaging dynamic element to its character. Lazio elegantly turns the marks of everyday use into an enhancing patina, contributing to its durability and captivating appeal. Natural markings and shade variations may be visible with this leather, highlighting the authenticity of this elegant material, a testament to the charm of natural imperfections.
